

WHAT IS CLAIMED IS:

1. A golf ball having a large number of dimples on a surface thereof, wherein the dimple includes an edge and an outer region positioned on an outside of the edge and a mean value of a width W of the outer region is 0.03 mm to 0.20 mm.
2. The golf ball according to claim 1, wherein a mean value of a ratio (W/d) of the width W of the outer region to a maximum dimension d of the dimple is 0.015 to 0.040.
3. The golf ball according to claim 1, wherein a mean value of an angle α formed by the outer region and a maximum dimension line is 1.0 degree to 15.0 degrees.
4. The golf ball according to claim 2, wherein a mean value of an angle α formed by the outer region and a maximum dimension line is 1.0 degree to 15.0 degrees.
